1st **AI EXPO**
# **Artificial Intelligence Exhibition & Conference**

AI EXPO 2017 concluded with unbelievable success!

From June 28 to 30, 2017, AI EXPO 2017 http://www.ai-expo.jp/en/ was held at Tokyo Big Sight, Japan. Even though AI EXPO was launched for the first time, it gathered 147 exhibitors, 41,677 visitors from 28 counties/regions, 6,792 conference attendees and 397 press visitors. Throughout the show period, the show was full with visitors and the atmosphere was very busy and lively. The participants were conducting meetings and networked one another. AI EXPO made a start to become one of the world's leading AI trade shows.

In recent years, needs for the use of Artificial Intelligence is increasing in various industries. With the background, Reed Exhibitions Japan launched this show. The show is Japan's first trade show gathering research, applications, equipment and services related to AI. As the AI market has been flourishing more and more, AI EXPO would draw much attention around the world and become an ideal place for professionals involved in AI technologies/services to interact one another.

Industry leaders spoke at Conference!

As the great opportunity to learn the latest technology and insight, the conference attracted 6,792 attendees in total. Ms. Mayumi Miyasaka, Manager of Watson IBM Japan described how IBM Watson contributed to create business advantages, along with installation examples in various industry fields in Japan and abroad. Mr. Akira Sakakibara, CTO of Microsoft Japan Co., Ltd. covered the latest trend on AI and their strategy "Democratizing AI" to make AI available and beneficial for every person and every organization, every developer.

Next Year's AI EXPO

AI EXPO is planned to be powered up and return at the next April. The next edition would be three times larger of 2017 edition. Do not miss that!
